## The **Affordable** Countertop Solution

When your wood, laminates and scratch-easy surfaces let you down, you know it's time to look for a more durable surface. Eezi Quartz countertops offer you a good-looking kitchen or bathroom finish, with the promise of durability.

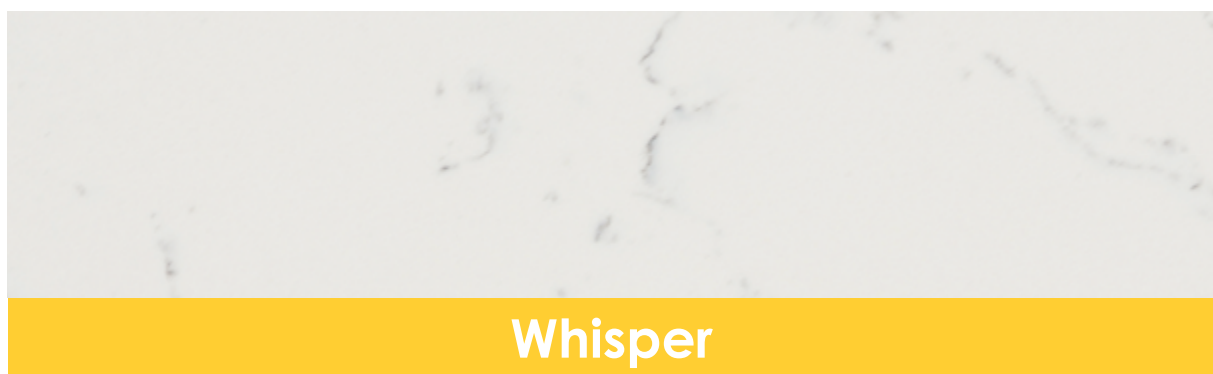

## Why Choose Eezi Quartz?

Quartz is one of nature's hardest minerals, making it a good choice for a durable surface. Each Eezi Quartz surface is made of quartz aggregate, which is why it can last so long and still look so good! Our countertops come in 20mm thick slabs and are great for kitchen countertops, bathroom vanities and backsplashes. With 9 popular colours to choose from, and a 15-year warranty, you are bound to find an Eezi Quartz countertop to suit your home interior.

## Care & Maintenance

With Eezi Quartz, cleaning is simple. Everyday care just needs dishwashing liquid and water. For more stubborn marks, gently wipe your Eezi Quartz with some liquid Chemico and a non-scratch sponge! Unlike granite and marble, Eezi Quartz countertops don't need any sealing.

\*Just like you wouldn't marry someone without meeting them first, if you're doubtful, rather go and meet your future Eezi Quartz countertops in person before buying and installing. Eezi Quartz surfaces are available in 20mm thickness.
